

## Aquacontrol Grip

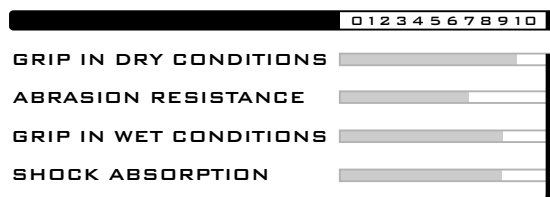

Latest latex formula innovation intended for top goalkeepers. It is based in a perfect combination between properties of Aqua grip and Mega grip palms, offering a top palm in terms of grip and ball control. Even in extreme conditions it will preserve its outstanding qualities.

## Mega Grip

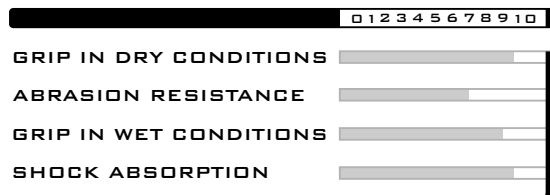

Our premium palm, recommended for all our professional keepers around the world. The special composition, very soft and elastic, guarantees pure grip and optimum contact with the ball. This ensures security in the most critical moments.

## Mega Grip memory

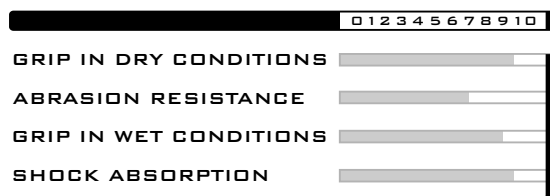

Our premium palm, very soft and elastic, guarantees pure grip and optimum contact with the ball. The application of a new layer of memory foam, absorbs perfectly the ball impact, adapting to it, which means to improve ball control.

## Duo Mega

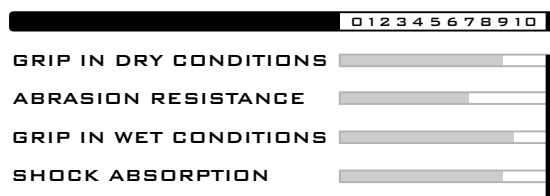

Special palm, developed according to demands from our top goalkeepers. The palm includes an additional internal groove latex, which ensures the hand settle to the glove palm, offering maximum ball feeling. Excellent grip and shock absorption.

## Aqua UCG

Palm construction specially designed for wet conditions. The excellent properties of UCG palm combined with an expanded micro porous structure, guarantee maximum grip and security when catching the ball.

## Ultimate Control Grip

High quality palm of very soft natural latex. Its excellent properties allows to use in different weather conditions, offering a perfect grip when catching the ball.

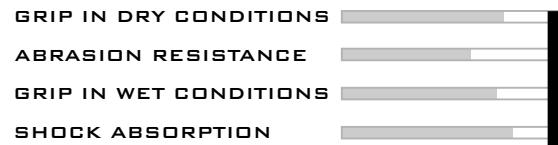

### Duo Plane Flexi Grip

New revolutionary high quality palm, very soft and comfortable. Its special construction with an additional layer of Plane latex, means an innovation in palms and offers an excellent performance and ball control.
